Q13. Any further comments you have on ICT and the portal at CJS , are welcome - please include here:

1	Could there be a remember me button when i go into student account for	Jun 21, 2011 10:31 AM
---	--	-----------------------

Q13. Any further comments you have on ICT and the portal at CJS , are welcome - please include here:

	lunch ordering? every time i go in i have to enter email address and password. also at my daughters school - Kambala - they send an email reminder if there is something new on KView that needs looking at. i find i spend more time on KView than Cranbrook portal as it much easier to navigate.	
2	There should be an easy to find staff contact directory	Jun 20, 2011 4:42 PM
3	Would be nice if it was kept up to date by all departments, more annoying than useful otherwise - just a waste of time logging in. Angus Burns ab@aba.com.au	Jun 18, 2011 6:01 PM
4	I have not always found the portal particularly helpful up to this point. There have been occasions where we have been told information would be available following information meetings for example and it has not subsequently been posted. I do not find that our year 4 teacher regularly posts homework or other items. At the beginning of the year especially when seeking information the site was full of previous year's material but no new information. It remained this way for much of term 1. As it was not being updated regularly it was not a useful or reliable resource. Its benefit for this stage of junior school has remained limited. I would be very happy to see this expanded with more work posted on the portal, notes, newsletter etc. Also when year photos are posted it would be helpful to have these in an album which contains / downloads all photos rather than having to download each individually. Perhaps off site clouds might be more applicable for this.	Jun 17, 2011 12:06 PM
5	An email to advise of any school events or Notes Home would be great with the link the item. Also SMS alerts re upcoming school events would be great	Jun 16, 2011 8:59 PM
6	We like the portal although it takes time to find things	Jun 15, 2011 8:43 PM
7	Why are there no questions relating to parental controls and filters????	Jun 14, 2011 8:22 PM
8	some of the homework tasks require soft ware that not everybody has so maybe an automatic down load of any programs that are required would be a good idea.	Jun 14, 2011 2:50 PM
9	AS MY SON ATTENDS THE SAME SCHOOL AS HIS CLASSMATES, IT WOULD BE HELPFUL TO SEE THE ENTIRE GRADE"S HOMEWORK UPDATED WEEKLY ON THE PORTAL. ALSO, A UNIFORM SHOP ONLINE THROUGH THE PORTAL WOULD BE AN ADVANTAGE, FOR BOTH THE STAFF AND BOYS, WITH THE BOYS ABLE TO QUICKLY PICK UP A BAG PREPAID AND PREPARED. MANY THANKS	Jun 14, 2011 2:44 PM
10	If there was relevant and updated information on the portal we would use it more frequently - at the moment only useful for accessing homeowrk - see Kamba;a school website for extremly relevant and user friendly and updated site!	Jun 14, 2011 1:10 PM
11	My daughter is studying at Kambala and all the information that related to my child only comes to me as an e-mail and all I have to do is to click the home site below the e-mail which directs me to the correct place on their portal. So I don't spend hours try to find out if there is any information on the portal for me (like I do in Cranbrook). Not only that this year they started this new thing. For example we had a sports carnaval outside the school and school wanted to know if we are going to drive our kids or they will be travelling with school bus. So they send us an e-mail with a home site on it. when we click, we went to portal where the note is and on the bottom we can click on our choice and it sends an e-mail of my choice to school. It's just fantastic. Beginning of the year we had a music carnaval at opera house. we even	Jun 14, 2011 12:02 PM

Q13. Any further comments you have on ICT and the portal at CJS , are welcome - please include here:

	bought our tickets and choose our seats through school portal home site. it would be great if you can start using similar system.	
12	msa	Jun 13, 2011 3:38 PM
13	Although we have both PC and Mac at home, the boys computers are Mac. Lately there have been quite a few tasks which are not compatible with Mac. This means I have had to let my son use my machine, which is not sustainable. I feel there is too much reliance on internet. I usually access the portal after 10pm - I frequently find the site is down late at night. I think it should NOT be taken as a given that the internet is reliable enough for homework tasks that are due the next day. Occasionally we have technical failures (printer, modem, service provider) etc. This creates an enormous amount of anxiety. If tasks are due the next day there MUST be a hard copy given to the child	Jun 13, 2011 12:07 PM
14	The portal is very hard to navigate.	Jun 13, 2011 7:51 AM
15	-more computer use needed -more use of ICT for teaching polling purposes;like quizdom -more feedback to parents via computer	Jun 12, 2011 12:33 PM
16	portal is very clunky. i find it hard to find stuff - eg it took me forever to find the class contact lists, and the search function is lousy. if the portal was better i would use it way, way more	Jun 11, 2011 9:54 AM
17	I access the portal far less than once a week but more than never :)	Jun 11, 2011 9:19 AM
18	I need to make more of an effort to see what is in the portal and I have set this as a priority for the next few weeks. Thank you for the survey.	Jun 11, 2011 12:14 AM
19	I believe that there should be one access for all parents rather than needing our sons' accounts as this contradicts the dictum that passwords should not be shared.	Jun 10, 2011 10:50 PM
20	I use the portal to order lunch once per week. I think there should be a combination of PC's and Mac's in ICT lab. Advanced computer skills programs should be available to the boys as should typing skills. Kambala is a great example of a well organised and fantastic on-line and in- school computer system.	Jun 10, 2011 7:30 PM
21	sport training schedules would be helpful, chess and co-curricular competition (chess and others) draws and school addresses etc.	Jun 10, 2011 5:36 PM
22	Last year we gave up on using the sports fixtures part of the website because it was hopelessly inaccurate. An accurate update list of fixtures, times and venues WITH clear instructions on how to find away from home fields would be appreciated. By the last point I mean not just "Field 5 at Riverview" - but a map of the campus showing where field 5 is!!	Jun 10, 2011 5:32 PM
23	I find the Journal very useful and look forward to catching up on all the school news. The portal is a great way to look at homework and other websites recommended by the school. I enjoy seeing any photos from excursions etc.	Jun 10, 2011 5:14 PM
24	Using the programs that are more compatible with Mac.	Jun 10, 2011 5:13 PM
25	We have a daughter at another school and receiving everything via email and doing homework on the net is excellent. Do away with the text book and make them learn on iPads!	Jun 10, 2011 4:42 PM

Q13. Any further comments you have on ICT and the portal at CJS , are welcome - please include here:

26	My son does not use our computer as I do not really promote it but I feel he should be .He is in Year 1.	Jun 10, 2011 4:22 PM
27	The search engine on the portal is not very helpful if you are not sure what category the subject you are looking for is in.	Jun 10, 2011 3:52 PM
28	hello i actually find the portal very difficult to navigate, in particular photos are really not user friends and it would be so much better if they were in some sort of slide show rather than accessing each individually. we would prefer to get newsletters and key information via email. thank you very much	Jun 10, 2011 2:59 PM
29	I think that getting the boys to use ipads / small laptops as a tool for homework and study is a very good idea!!	Jun 10, 2011 2:52 PM
30	I am pleased the school is looking for feedback on the question of IT and communication.	Jun 10, 2011 2:28 PM
31	The school should speak to parents through facebook and twitter. Each year could have its own page. Urgent items could be tweeted.	Jun 10, 2011 2:26 PM
32	I try to limit my son's computer usage. I like the fact that most of the homework does not have to be done on the computer. I hope it stays that way!	Jun 10, 2011 2:10 PM
33	Portal navigation could be easier - eg very tricky finding CETOP information.	Jun 10, 2011 2:06 PM
34	i am not as immersed as i should be but I think it just takes time...also we have had our computers overhauled so now I can access the site again and get into the habit of entering it. Agnes	Jun 10, 2011 2:06 PM
35	I think each boy should be given an ipad and be able to use the educational apps - also they need to learn Office, Adobe, Photoshop etc	Jun 10, 2011 2:00 PM
36	Just rarely get around to going to this, only when some photos may be on it that are relevant, perhaps a monthly digest email of new items on it would remind me to check it.	Jun 10, 2011 2:00 PM
37	It would be good if more information was sent home electronically. Also, an SMS alert system would be a very effecient way of communication if urgent information was to be sent home - eg., sport or debating arrangements changed. If we as parents can get access to all email addresses from our class lists, then surely the teachers have access to that too. More email communication would then stop the chain of chinese whispers that sometimes happen if boys don't bring home the correct information on things.	Jun 10, 2011 1:56 PM
